

***International Neuromodulation Society Announces "Innovations in Neuromodulation" Educational Event at INS World Congress***

*Featuring industry leaders, investment community representatives and emerging companies*

April 15, 2022 - BARCELONA--In "Innovations in Neuromodulation," the International Neuromodulation Society (INS) brings together industry leaders, innovators and investors May 22 to discuss commercialization from a global perspective.

This sixth educational [event](#) by the INS for the neuromodulation innovation and investment community will highlight presenters' perspectives on innovation advantages and challenges in their respective locales.

The day includes:

- Presentations by emerging companies, including:

BIOS Health	NXTSTIM	Synergia Medical SA
Neuroelectrics	RebrAln	Thermaquil, Inc.
Neuromod Devices Limited	Spark Biomedical	

- Neuromodulation without Borders – INS President Dr. Marc Russo, conjoint associate professor, University of Newcastle School of Biomedical Sciences; and President-Elect Dr. Konstantin Slavin, professor, University of Illinois at Chicago Department of Neurosurgery
- Neuromodulation from the Ground Up: Bootstrapping a Pandemic – electroCore Chief Medical Officer Dr. Peter Staats
- How to Marshal Resources when you are Outside the USA – Neuroelectrics CEO Ana Maiques
- Conducting Trials in Latin America and Asia , Challenges and Pitfalls – Medtronic Vice President of Clinical Research Sudha Iyer, Ph.D.
- The Benefits of a Medtech Precinct – Richard Nash, BioInduction board advisor
- Innovative Solutions to Startup Funding? – Florian Haupt, partner, TruVenturo GmbH; CEO Ana Maiques; Jason Hannon, Mainstay Medical CEO
- How Can we Shorten the Commercialization Pathway? – Richard Nash; Erika Ross, Ph.D., director, applied research, Abbott Neuromodulation; Jason Hannon
- Networking with medical device industry leaders and emerging therapy innovators

The talks precede scientific sessions at the INS 15<sup>th</sup> World Congress. “Neuromodulation: From Scientific Theory to Revolutionary Therapy” in Barcelona, Spain, May 23 - 26, 2022, with comprehensive tracks on all neuromodulation therapies: <https://ins-congress.com/>

### **About the International Neuromodulation Society**

The nonprofit International Neuromodulation Society presents up-to-date information about the full breadth of neuromodulation therapies through its [website](#), its journal [\*Neuromodulation: Technology at the Neural Interface\*](#), regional scientific meetings, and the biennial [INS World Congress](#).
